## Students training

The activities performed by the students are following the implementation of the knowledge acquired from seamanship courses in first year of study. CEPREMAR is equipped to provide support for the next training activities:

- transmission of signals between ships using flags and arms;
- boatswain's whistle signals and throwing heaving line;

- arming and disarming sailing boats;
- boats maintenance;

- knots and braids;

- rules aboard boats;
- organizing sports competitions and nautical games

Each year, students from other naval academies train with Romanian students during summer practice.

## Nautical sports

In CEPREMAR are training academy yachting and rowing teams .

Over the years the naval academy teams participated in numerous national and international sailing competitions.

Roumanian students won a lot of awards at The International Nautical Competition from Turkey.
